REVENUE MANAGEMENT

AMSURG
An **Envision Healthcare** Solution

Quick Facts

- Business Operations sets compliant financial policies for centers, and are responsible for the health of a center's Accounts Receivables (AR).
- We provide expertise and tracking for RAC audits, CERT requests, other Medicare audits as well as audits by any payer.
- Business Operations develops plans of correction for centers with AR issues and assists the center in the execution of plans.
- Our team assists centers with QDC (quality data codes) reporting, monitors compliance levels with Medicare to safeguard the center's future reimbursement.

A RESOURCE FOR ALL OF YOUR REVENUE CYCLE NEEDS

Business Operations is a resource for all of your revenue cycle needs. We help assist and educate in coding, policies, processes, troubleshooting insurance, collections and patient issues.

Education and Training

Support billing staff by continuing their education through quarterly webinars and a billing conference.

Regulatory Compliance

Assist center and billing staff with compliance, regulatory and Medicare issues.

Revenue Cycle Management

Provide oversight and assistance in coding, billing, reimbursement, denial management and resolution of payor issues. Also looks for new and effective ways to help your patients with their out-of-pocket expenses.

The Business Operations team is always looking for ways to expedite reimbursement from payors and patients in the constantly changing healthcare environment.
