Simple Pay™

Increase collections and improve business-office efficiencies

Simple Pay is a simple-to-use, fully customizable business-office application that provides staff with the information and tools they need to manage all aspects of the patient collections process. Using Simple Pay, staff is able to inform patients how much they owe and provide them with easy click-through payment options.

Benefits for staff:

- Manage verifications, estimations, credit card payments, financing, patient communication and monitor payment activity from a single dashboard
- Increase collections and reduce bad debt
- Significantly reduce staff phone calls
- Improve efficiencies with a more streamlined and centralized workflow
- Fewer non-performed cases for financial reasons

Benefits for patients:

- Email and text communications help patients better understand their financial responsibilities
- Email links provide patients with a preferred and convenient way to pay for their procedures
- Ability to pay ahead and benefit from affordable payment plans
- More accurate and timely communication to patients and giving patients more control leads to higher patient satisfaction
- Put patients in control of their financial responsibilities

Simple Pay provides business-office staff with the tools necessary to manage the ever-increasing patient financial obligation. Our platform integrates seamlessly with practice management systems and consolidates disparate systems such as insurance verification, estimation, credit card gateway and patient financing into a single dashboard that incorporates patient communication tools.
